

To: All Parents/Carers Year 13 Students

Our Ref: 87376921

02 December 2022

Dear Parent/Carer

**Re: Year 13 Student Support Information Evening**

With mocks approaching we are aware that many parents/carers may be looking at ways they can best support students in preparation for the exams, and that students may be starting to consider how they can revise effectively. This is perhaps even more relevant than in previous years considering the disruption Covid-19 has had.

In response to this there will be the opportunity to join us on **Thursday 08 December (5:30 – 6:30pm)** where we will look at some of the science behind learning, as well as strategies and techniques that can be used to support students not only in preparation for their mocks, but also for their A level exams in the summer.

We will also discuss next steps in terms of UCAS and apprenticeships, as well as some wider updates about life in the Sixth Form.

There is no need to sign up in advance to attend this evening and we would also encourage students to attend. We look forward to seeing you next Thursday

Yours faithfully,

**The Sixth Form team**
