Dear Parent/Carer,

Re: Thinking about Medicine Outreach Talk

Your child has previously expressed an interest in finding out more information about studying medicine at University and jobs in the medical profession. We are therefore pleased to invite your child to a virtual talk with Hull York Medical School aimed at GCSE students to explore the role of a doctor and the routes into medicine after GCSE.

The talk is scheduled for Monday 20 March 2023 at 3.30pm and will take place in KF31, with Hull York Medical School joining virtually. Please could you complete the following form:

<https://forms.office.com/e/BSGq0ZLMRA> to confirm whether your child is able to attend the talk by Friday 10 March 2023.

If your child is no longer interested in pursuing a career in medicine then please could you also fill in the form detailing this. It is anticipated that the talk will last for 45 minutes. As the talk is taking place after the school day, your child will need to make their own arrangements home after the event.

Should your child wish to pursue a career in medicine, we are pleased to have our "Aspire Medical Pathway" to support students in our Sixth Form who are applying to study medicine at University. The successful pathway has led to many students gaining offers and accepting places to study medicine at university.

Yours faithfully

Callum Holness
Director of Science
